

Partnerships

At MANOA we are searching for innovative ways to make a difference. Our ecosystems include Down syndrome, Nature and HIV/AIDS. We are a bridge between international organisms, private companies and people who simply believe that they can really make a difference. Discover more about us on:

What we
want to do

Why it will help
raise awareness

Our Vision

A partnership between your foundation and MANOA will accelerate raising awareness. It offers a better visibility, an opportunity to inspire and cooperate with others as well as reaching out to people not related to nature.

Being present on a more diverse platform such as MANOA will allow you to attract the attention of others and, by joining forces, it will take us closer to a better understanding of our planet, and therefore, better actions to protect it.

A hiker with a red hat and backpack is walking along a dark, rocky ridge. The background shows a vast, flat landscape with snow-capped mountains under a clear sky. The word "NATURE" is written in large, white, stylized letters across the middle of the image.

NATURE

A partnership with MANOA includes:

- **More visibility** to the work of your foundation around the world & people not necessarily related to your topic.
- Allow other countries to **discover your work & inspire** themselves.
- Create **possible collaborations** between foundations & the private sector.
- **Create common projects together to help** our task of showing the world what can be done to move forward, faster.
- **Translation of your achievements to Spanish** to reach out to the more than 460 million Spanish speaking people.
- **Reach out to people** through our social media.
- Your logo on our website with **link to your website** for direct contact.
